All,

The **Fishmoor Building Padlock** has been replaced with a 'new' key padlock, and uses the same key as the site entrance gate padlock, and replaces the combination lock that was provided after the 'break-in' last year.

Please ensure that when opening the building you lock this padlock onto the mesh door grill, as picture below, this will ensure it doesn't get lost and is readily available when locking up at the end of each session.

Cheers

John McCann
